INFORMATION

Roberts® PRO Dual-Depth Carpet Knife is a must have for carpet installers. Expertly designed, this knife provides tool-free, easily adjustable blade depth options: 20mm or 15mm to accommodate different carpet back thickness. Ideal for use with round- or square-end slotted blades, the Pro Dual-Depth Knife features SWIVEL GRIP, a patent-pending blade spindle that stores most brands of 10-packs and up to 20 single blades. The moulded comfort grip and ergonomic design increase leverage and pulling power.
